a Pedal bearing bracket

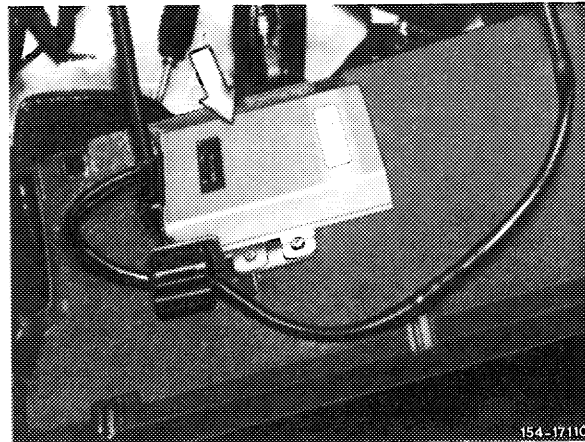

Model 123  
with automatic transmission

4 On vehicles with manual transmission, unscrew  
control unit from holder of cover.

Model 123 with manual transmission

## Installation

5 During installation of a new control unit (part No. 005 545 12 32) on vehicles up to approx. March 1976, the red line 0.75 mm<sup>2</sup> from cruise control/Tempomat switch (jack 2) to control unit (jack 5) must be retrofitted. The line serves for voltage supply of electronic system in control unit.

6 For installation proceed vice versa.

7 Perform function test on road.
